

INFORMATION FOR AUTHORS

The IEEE TRANSACTIONS ON VERY LARGE SCALE INTEGRATION (VLSI) SYSTEMS is published monthly. Contributed papers may be of a tutorial nature. Transactions Briefs include contributions of the following nature: corrections; rebuttals of previous briefs; comments on published results; discussion of experiences using published results; conjectures; posing of new problems; announcement of new results and other contributions written in the format of a correspondence. Research papers must be of original contributions and must not duplicate descriptions or derivations available elsewhere. The author should limit paper length whenever this can be done without impairing quality.

If a contribution is of sufficient general interest to the entire IEEE membership, it will be recommended for publication in the PROCEEDINGS OF THE IEEE. Submission of a manuscript manifests the fact that it has been neither copyrighted, published, nor submitted for publication elsewhere, unless otherwise so stated by the author.

To avoid delay, please be guided by the following suggestions.

A. Process for Submission of a Technical Paper

- 1) Submit electronic version of your manuscript to (<http://mc.manuscriptcentral.com/tvlsi-ieee>). The manuscript should be complete with references, illustrations, abstract, and index terms.
- 2) The referee process assumes the anonymity of the reviewers of your paper. It is also possible to provide a review in which the author's identity is also kept from the reviewers. Should you wish to take advantage of this provision, please make your desires explicit in this regard in your cover letter to the Editor-in-Chief. In this case, make sure that your name appears only on a removable cover page.
- 3) If the manuscript has been presented, published, or submitted for publication elsewhere, please so inform the Editor-in-Chief. Our primary objective is to publish technical material not available elsewhere, but on occasion we publish papers of unusual merit that have appeared or will appear before other audiences.

B. Style for Manuscript

- 1) The manuscript should be double-spaced, using a font size of 11 points or larger.
- 2) Provide an informative 100-250 word abstract and at least five keywords or index terms.
- 3) Provide a separate double-spaced sheet using all footnotes, beginning with an "Acknowledgment of financial support" and "Affiliation of author."
- 4) References must appear as a separate bibliography at the end of the paper, with items referred to by numerals in square brackets, e.g., [12]. References should be complete and in IEEE style (see item 5).

Style for papers: Author, first initials followed by last name, title, volume, inclusive page numbers, month, year.

Style for books: Author, title, location of publisher, year, chapter, or page numbers (if desired).

- 5) For further information, consult Information for IEEE Transactions and Journal Authors, available online at <http://www.ieee.org/organizations/pubs/transactions/information.htm>, or by email to trans@ieee.org.

C. Style for Illustrations

- 1) Illustrations should be sharp, noise-free, and of good contrast. We regret we cannot provide drafting or art service.
- 2) On graphs, show only the coordinate axes, or at most the major grid lines, to avoid a dense hard-to-read result.
- 3) All lettering should be large enough to permit legible reduction of the figure to column width, perhaps as much as 4:1. Typing on figures is not acceptable.

D. Final Manuscripts in Electronic Form

If a manuscript is accepted for publication, the author will be asked to supply the following:

- 1) Four (4) separate hard copy versions in IEEE format (2-column) of the final manuscript accompanied by a written description detailing the changes you have made.
- 2) A Tex, Latex, or Microsoft Word application file that exactly matches the hardcopy must be submitted via disk/CD.
- 3) Two (2) good reproducible hardcopies of the original artwork accompanied by a digital file in Tiff, Postscript, or EPS.
- 4) A signed IEEE copyright form or a printout of the copyright form submitted online.
- 5) Biographies and photos (TIFF format is the only accepted format on disk or CD; NO JPGs) are required if and only if your paper is accepted as a Regular Paper.
- 6) The paper TVLSI ID number and your contact information (address, phone, fax, email).

E. Page Charges

After a manuscript has been accepted for publication, the author's company or institution will be approached with a request to pay a charge of \$110 per page. Payment of page charges for this IEEE TRANSACTIONS is not obligatory; nor is it a prerequisite for publication. The author will receive 100 reprints (without covers) free only if the page charge is honored. If this charge is not honored, IEEE will charge a mandatory page charge of \$175 per page in excess of ten (10) pages (maximum of 14 pages) for Regular Papers, or in excess of four (4) pages for Transactions Briefs. In no case may a Transactions Brief exceed 5 pages.

Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright Law, authors are required to sign an IEEE copyright transfer form (<http://www.ieee.org/web/publications/rights/index.html>) before publication. This form returns to authors and their employers full rights to reuse their material for their purposes. Authors must submit a signed copy of this form with their manuscript.
